

SPENCO® WORK™

All Day Comfort for Hardworking Feet

Spenco® PolySorb® Heavy Duty Insoles

- Combines special “forefoot” and “heel strike” cushions to provide maximum comfort for people on their feet all day.
- Cushions impact from standing/walking on concrete floors

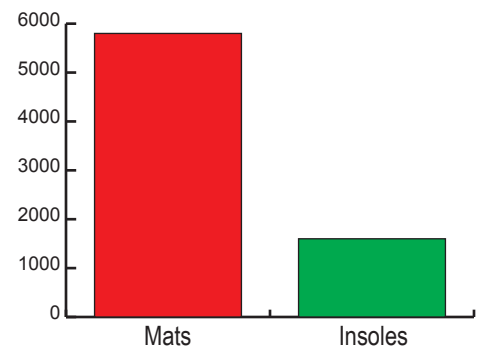

Total Cost of Protection

Factors involved in computing total cost and savings:

- \$29.00/6 sq. ft. x average workspace of 12 sq. ft. x 100 employees (\$5,800)
- \$20.00/pair of Spenco® Insoles x 100 employees (\$1,600)
- Total Savings of \$4,200

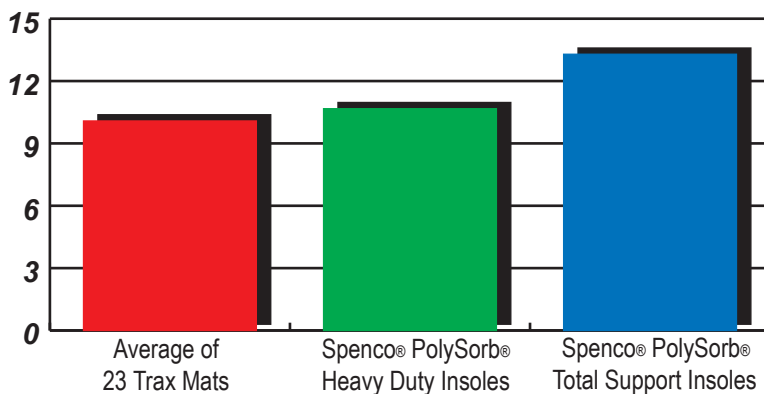

Total Cost

Cushioning

The lower the test number, the better the cushioning

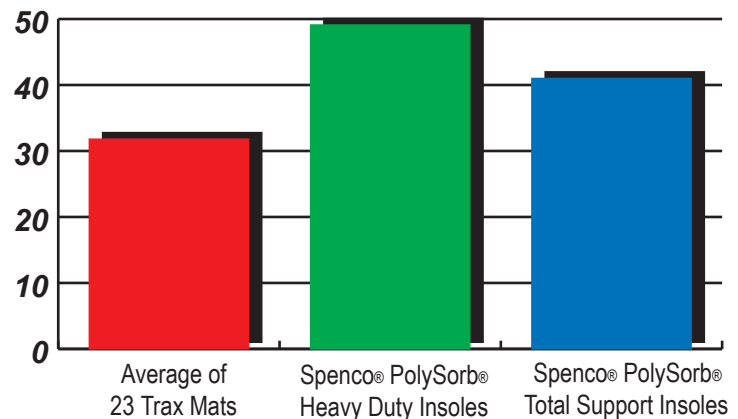

Benefit: more cushioning means more overall foot comfort.

Energy Return

The higher the test number, the better the energy return

Benefit: the % of energy return with every step

Testing conducted at Iowa State University
 Complete test results available upon request from Spenco Medical Corp.
